## Description

---

The Black & Decker PD400LG PivotDriver Two-Position Cordless Screwdriver is an innovative tool that's perfect for driving screws in tight spaces. With a pivoting design that helps you reach areas other screwdrivers simply can't, this easy-to-use driver is perfect for professionals and home improvement enthusiasts who are looking for a reliable, compact, go-anywhere tool.

What makes the PD400LG so versatile is its pivoting design. The two-position handle rotates 180 degrees to give you easy access to confined areas. The pivoting motion also gives you optimum control and precision, so

your screws go exactly where want them.

Even though it's amazingly compact, the PD400LG doesn't skimp on power. It operates at 3.6 volts and provides 180 RPM to drive screws flush. Never too much or too little, the PD400LG always gives you the right amount of muscle for the job.

#### Ready When and Where You Need It

Thanks to rechargeable battery technology, the PD400LG offers reliable power when and where you need it. This cordless screwdriver comes with a charger that's Energy Star rated and is compact enough for easy storage.

#### Designed with You in Mind

The PD400LG has numerous features that were designed with your comfort in mind. To start, this screwdriver is ergonomically designed to feel like a natural extension of your hand. A soft-grip, grooved handle provides feedback and a signature over-molded surround provides durability and ensures a controlled grip. What's more, a bottom pivoting trigger with upper hook eliminates finger dragging on the housing.

And for easy operation in a variety of conditions, this screwdriver features an integrated LED light ring that helps illuminate dark spaces. Also, on-board storage for the included double-ended bit ensures that you'll always have the two most common bit sizes available at your fingertips.
