EK-Loop D-RGB LED Strip - 400mm

$11.49

Product Images

Short Description

Replacement individually addressable RGB strip for upgrading existing EK products. The strip is 400mm long and can replace standard RGB strips in CPU blocks, monoblocks, reservoirs, and pump-combos. The strip is

connected via a 3-pin connector to supported 5V headers that are present on most modern motherboards.

Description

Replacement individually addressable RGB strip for upgrading existing EK products. The strip is 400mm long and can replace standard RGB strips in CPU blocks, monoblocks, reservoirs, and pump-combos. The strip is connected via a 3-pin connector to supported 5V headers that are present on most modern motherboards.

Specifications

Technical data:

- Connection type: 3-pin (+5V, D, Blocked, Ground)
- Rated voltage: 5V DC
- Number of LEDs: 24 (60LED/m density)
- Strip length: 400mm
- Strip width: 4mm
- Cable length: 500mm

PLEASE NOTE:

- Should not be used with 12V headers as that will damage the diodes, they should be powered exclusively by 5V headers

Additional Information
