Short Description

These Custom UV Printed Backplates are a great way to personalize your GPU with your favorite artwork, logo's or just some crazy patterns!

Please read below for more information before ordering.

Description

Looking for a great way to customize your built? Have a specific design/theme in mind but don't know the best way to execute it? Well then our UV Printing service is just for you. With this service you will be able to customize your GPU Backplate with Logo's, Artwork, patterns or anything else under the sun.

Please note: The price listed is for the UV printing service on a GPU Backplate only this does not include the backplate. Please select the backplate of your choice and this service to your cart before placing your order. If you would like to send in your backplate please contact us before doing so.

Images should be High-Res preferably 300dpi for best print quality and should be at least a 1/8" bigger then the print area. Going below these specification will cause print to be blurry

Acceptable file types: .png, .jpg, .jpeg, .bmp, .ai, .eps, .psd(Any artwork not in proper format maybe subjected to an additional charge)

Please send artwork to prior to ordering:Garrett@performance-pcs.com
