

WATERCOOL

Watercool HEATKILLER® D5-Top - Stand for fan mounting (120mm fans)

\$22.50

Product Images

Short Description

With this stand, you can mount a HEATKILLER® D5-Top on a 120mm fan space. Mounting it onto a horizontal radiator for 120mm fans is also possible

Description

With this stand, you can mount a HEATKILLER® D5-Top on a 120mm fan space. Mounting it onto a horizontal radiator for 120mm fans is also possible.

The top can swing freely, its vibrations are isolated from the bottom part by included vibration dampeners. This reduces the overall noise level, as the vibrations from the pump are not transferred to the case or radiator.

The HEATKILLER® D5-Top is not part of the delivery scope. The pictures with installed HEATKILLER® D5-Top are only sample pictures.
