Description

Barrow's Rigid tubing is a great alternative to classic soft tubing. This tube is made of copper material. Hardline tubing is a cleaner, more precise way of tubing your system. You can bend or shape hard tubing using a bending cord, heat gun and bending tool. While using hardline tubing in your build presents new challenges, the results speak for themselves.

Copper material

Convenient and quick

The copper material is full of texture

紫铜材质，质感尽显

01

The hard metal tube can improve the overall texture and heat dissipation efficiency in the water cooling system due to its unique metal texture.

Various specifications are available

多种规格可选

There are 90° pre bends to be chosen, and so customers only need to cut them to the target size for immediate use.

02

The metal material can assist in heat dissipation

金属管材，辅助散热

03

The metal material has good thermal conductivity, and so the cooling liquid can be circulated in the pipeline to assist in heat dissipation.

Electrophoresis Process Robust and Durable

电泳工艺，坚固耐用

The use of electrophoretic process on the surface can increase the service life of the tube.
