

Grommet Edging - Clear

\$0.99

Product Images

Short Description

This grommet edging is extremely small and can be used to cover any sharp edge in your case. The clear material is very unobtrusive so will blend inside any case. This grommet edging can be used for small holes made in your case for electrical wiring or for water tubing where you don't want to cut into these critical components. This edging is made of durable clear plastic and is fairly flexible.
