

# Lian Li STRIMER PLUS 24 PIN 7.87 in. (20 cm) Addressable RGB Power Extension Cable

\$59.99

## Product Images

## Short Description

Upgraded from its multiple awards-winning predecessor, Strimer Plus offers bolder lighting and more sophisticated patterns to make your PC shine.

## Description

---

Upgraded from its multiple awards-winning predecessor, Strimer Plus offers bolder lighting and more sophisticated patterns to make your PC shine.

## Features

---

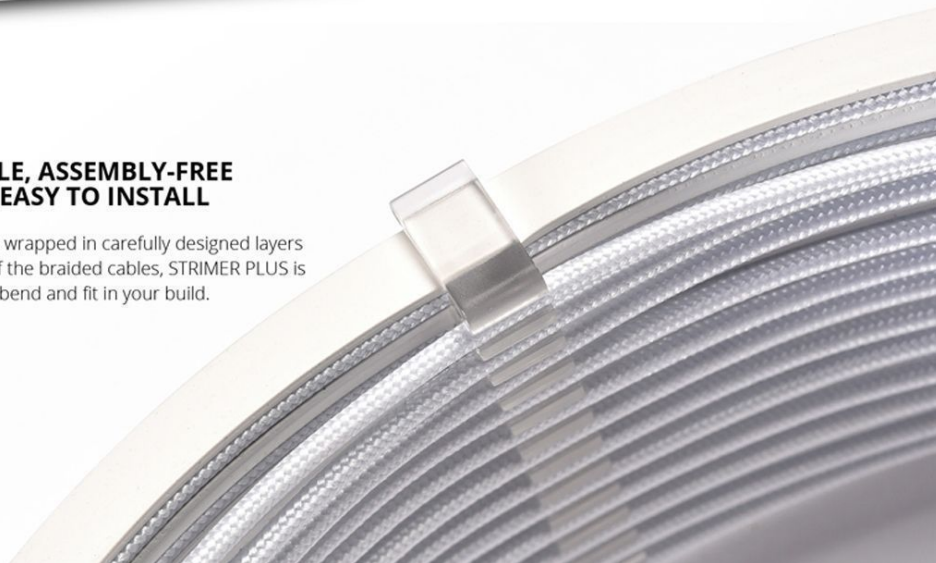

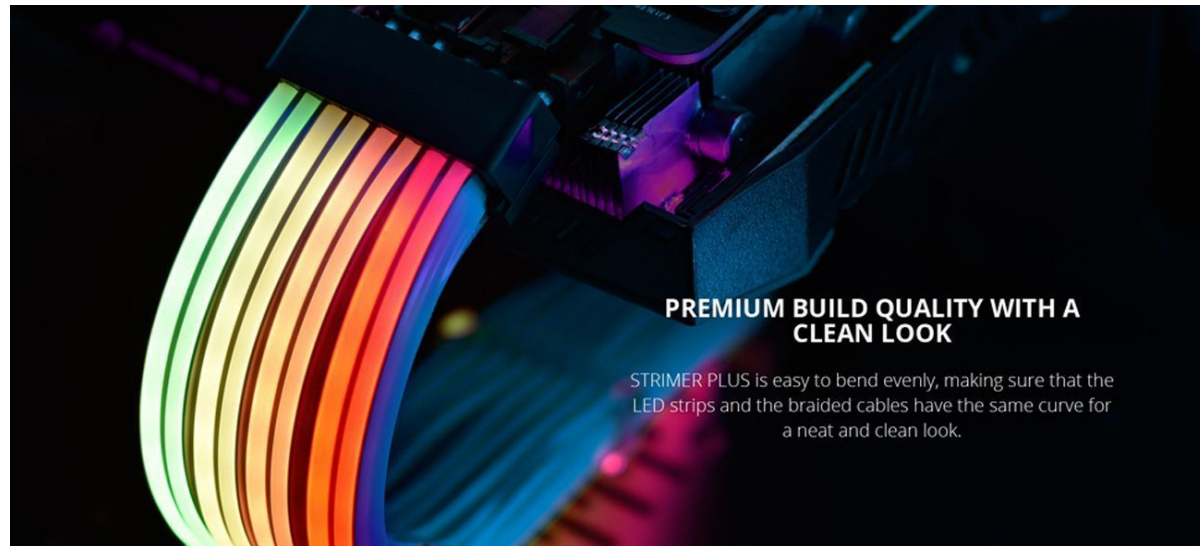

### **BRIGHTER AND MORE COMPLEX LIGHT EFFECTS**

The 24-PIN STRIMER PLUS has a total of 120 LEDs (108 LEDs in the 8-PIN), allowing your build to glow with sophisticated lighting.

### **FLEXIBLE, ASSEMBLY-FREE AND EASY TO INSTALL**

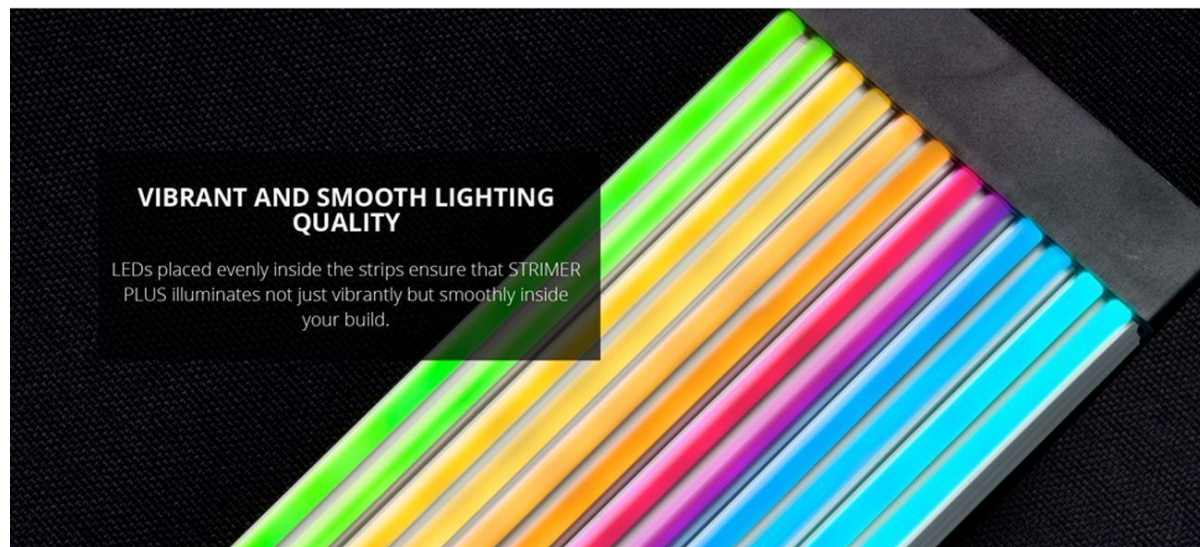

With the LED strips wrapped in carefully designed layers of silicone on top of the braided cables, STRIMER PLUS is easy to bend and fit in your build.

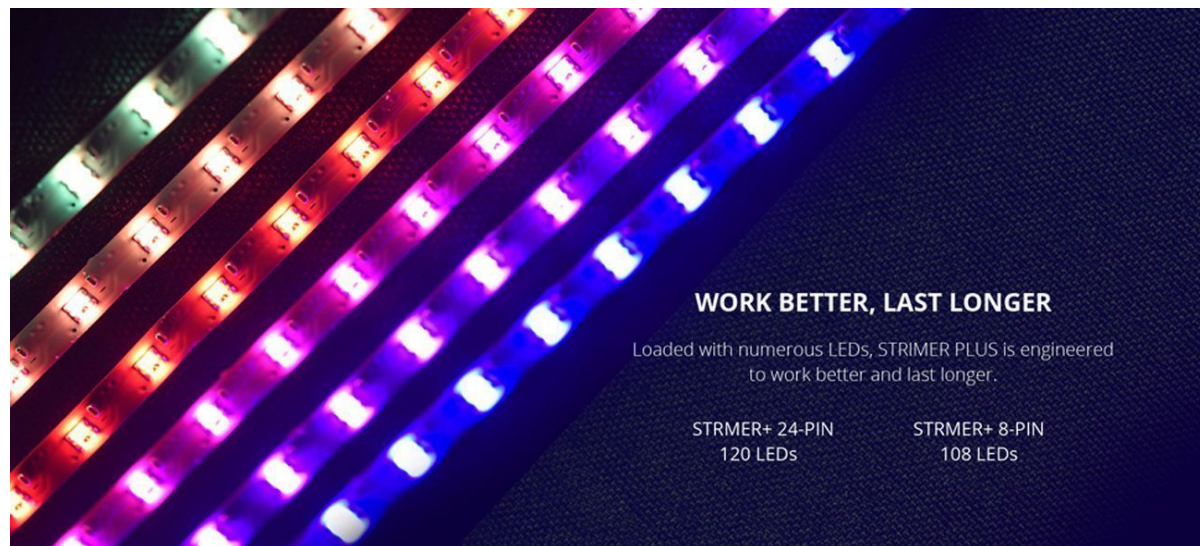

### PREMIUM BUILD QUALITY WITH A CLEAN LOOK

STRIMER PLUS is easy to bend evenly, making sure that the LED strips and the braided cables have the same curve for a neat and clean look.

### VIBRANT AND SMOOTH LIGHTING QUALITY

LEDs placed evenly inside the strips ensure that STRIMER PLUS illuminates not just vibrantly but smoothly inside your build.

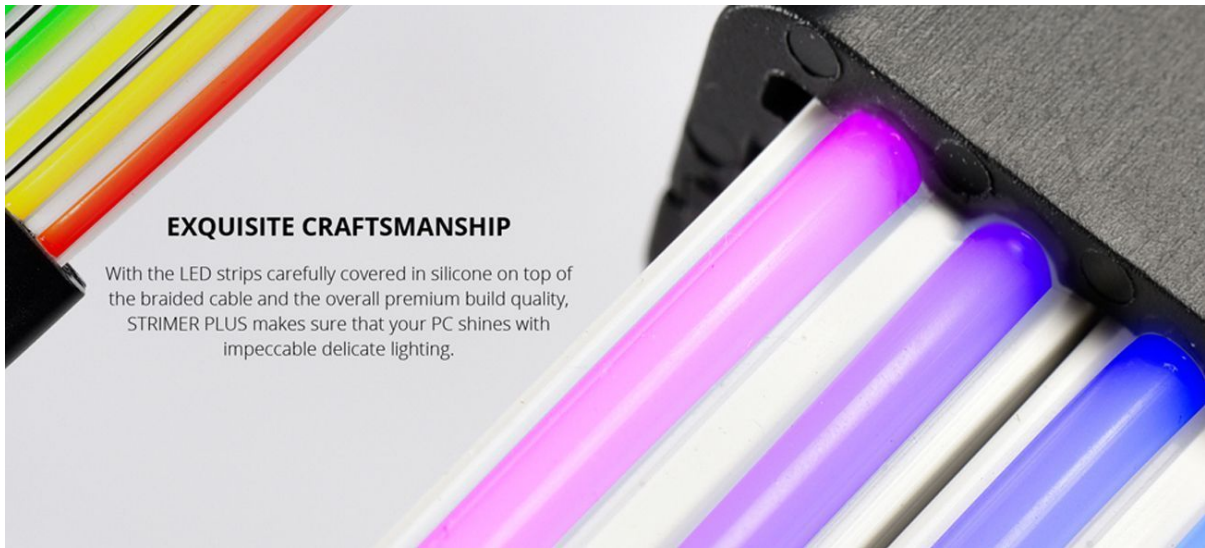

### WORK BETTER, LAST LONGER

Loaded with numerous LEDs, STRIMER PLUS is engineered to work better and last longer.

STRIMER+ 24-PIN  
120 LEDs

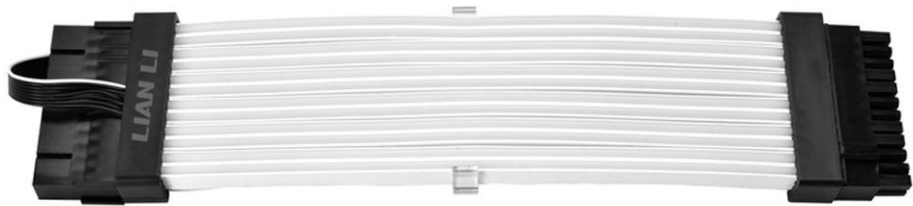

STRIMER+ 8-PIN  
108 LEDs

### EXQUISITE CRAFTSMANSHIP

With the LED strips carefully covered in silicone on top of the braided cable and the overall premium build quality, STRIMER PLUS makes sure that your PC shines with impeccable delicate lighting.

### PLUG AND GO

Well engineered, with modularity in design, STRIMER PLUS is a quick and easy add-on product for giving your PC more RGB touch.

### RGB LIGHTING SYNC

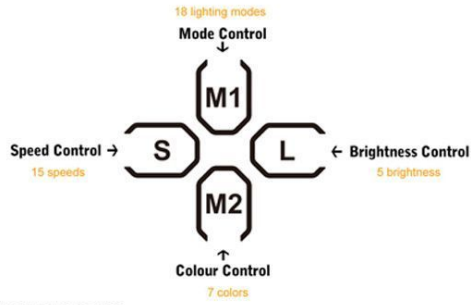

The controller that comes with the 24-PIN STRIMER PLUS allows users to fully control the lighting effects. Users can also create a completely synchronised system by connecting the controller to the 3-PIN 5V ARGB header on the motherboard, then pressing the M1 button for 3 seconds to control the lighting effects via the motherboard software.

**NOTE:**

Provided the motherboard has the requisite 3-PIN 5V ARGB header, users should be able to synchronise and control the STRIMER PLUS's lighting effects via the motherboard software.

**NOTE:**

STRIMER PLUS 8-PIN comes with a 3-PIN 5V cable adaptor for motherboard ARGB 3-PIN header.

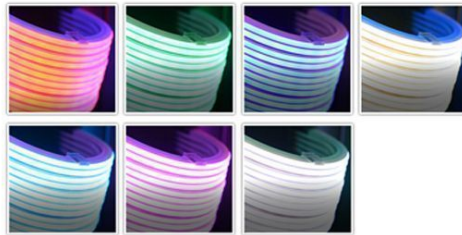

### 18 LIGHTING MODES

If you're enamoured with the idea of giving your PC a more dynamic vibe, modes 1~11 offer up to 77 lighting permutations for you to choose from; if you are more of a monochrome person, modes 12~18 can also satisfy your taste.

(1) Drizzling, (2) Cha-cha, (3) Boomerang, (4) Spectrum  
 (5) Wave, (6) Meteor, (7) Parallel neon, (8) Stairs  
 (9) Snooker, (10) Gluttonous snake, (11) Collision

(12) Red, (13) Green, (14) Blue, (15) Yellow  
 (16) Ocean, (17) Magenta, (18) White

On mode 1~11 colours can be altered via the M2 button.

On static colour modes, the M2 button is non-functional.

- Next level brightness
- Multiple light configurations
- Premium build quality
- Exquisite craftsmanship

STRMER+ 24-PIN motherboard extension cable

STRMER+ 8-PIN GPU extension cable

## Specifications

## SPECIFICATIONS

Model	STRIMER PLUS 24-PIN	STRIMER PLUS 8-PIN
