Nice new cooler from Titan for most VGA cards on the market also has a variety of slick looking fan covers in a variety of colors. This is an excellent cooler and very easy to install.

## Description

---

Nice new cooler from Titan for most VGA cards on the market also has a variety of slick looking fan covers in a variety of colors. This is an excellent cooler and very easy to install.

## Features

---

- TTC-CUV3 (DIY) fits most VGA cards, and there are 2 different mounting holes to fit ATI and NVIDIA chips
- This cooler is a solid copper heat sink with a transparent LED fan, and the mirror finish on the heat sink is definitely a plus to cool your VGA card and keep your PC looking great. It is also a quiet cooler!
- Fan cover can be changed as a user's desire, and while the LED fan is running, it creates a beautiful optical effect
