Short Description

Panaflo axial fans, made by Panasonic, suit a wide range of applications. They force air out in a "funnel" type pattern, and are ideal when cooling a specific area such as a power supply that is surrounded by numerous components with minimum ventilation available.

Description

Panaflo axial fans, made by Panasonic, suit a wide range of applications. They force air out in a "funnel" type pattern, and are ideal when cooling a specific area such as a power supply that is surrounded by numerous components with minimum ventilation available.

Panaflo L1 series of case fans are highly rated for their high air flow, while using less power and less noise than the competition.

Panaflos are the best computer case fans you can buy. Utilizing the new Hydro-Wave bearing technology, the Panaflo L1 series produces stellar CFM (cubic feet per minute), while being some of the quietest fans on the market.
