

# Bitspower "Baircool" - Ultimate Non- Silicone/Graphene Thermal Paste - 2.5 Grams

\$8.99

## Product Images

## Short Description

There's a NEW Gunslinger TIM in town...and his name is "Baircool"!

Introducing Baircool - The Ultimate Non-Silicone/Graphene Thermal Paste TP-1 (2.5G)

The BPA-TP1 thermal compound is a non-silicone grease with extremely low thermal impedance and long-

term stability. The proprietary-formulated thermal compound can be spread easily and evenly, and doesn't require special conditions for its storage.

## Description

---

There's a NEW gunslinger in town...and his name is "Baircool"!

Introducing Baircool - The Ultimate Non-Silicone/Graphene Thermal Paste TP-1 (2.5G)

The BPA-TP1 thermal compound is a non-silicone grease with extremely low thermal impedance and long-term stability. The proprietary-formulated thermal compound can be spread easily and evenly, and doesn't require special conditions for its storage.

You have to give this a go!

## Features

---

- Excellent performance
- Excellent long-term stability
- Non-corrosive
- No special requirements for storage
- Easy to apply
- Relatively small amount needed for use
- No "burn-in" time required
- Low dry-out
- Not electrically conductive

## Specifications

---

Specifications	
Color	Gray
Thermal Conductivity	6.5 W/m-K
Thermal Impedance	0.009 K-in <sup>2</sup> /W
Specific Gravity	2.5 g/cm <sup>3</sup>
Viscosity	< 600,000 CPS
Dielectric Strength	0.9 KV/mm

## Additional Information

Brand	Bitspower
SKU	BPA-TP1-2.5G
Weight	0.1000
Color	Gray
TIM Type	Paste
Vendor SKU/EAN	4712914786364
Special Price	\$7.64
