

# Thermal Grizzly Shield - 5ml

\$14.95 As low as  
\$5.50

## Product Images

## Short Description

---

Thermal Grizzly TG Shield is a high temperature conformal coating to protect components from liquid metal short circuits. TG Shield is fast drying for quick application and will provide reliable protection of PC components in combination with liquid metal. The integrated brush allows easy and precise application. The wide operating temperature allows application around CPUs and GPUs even at high operating temperature.

## Specifications

---

- Application Temperature -20° C to 110° C
- Curing time 30 min at 20 °C
- Typical Application CPUs, GPUs, Mainboards

## Additional Information

---

Brand	Thermal Grizzly
SKU	TG-ASH-050-RT
Weight	0.7500
TIM Type	high temperature conformal coating
Vendor SKU/EAN	0753677507616
Internet Reviews	0
