- Material: Coated Brass

### Included Parts

- 1x Male to Female G 1/4in. 90 Degree Rotary Elbow Fitting
- 1x Installed oring on male threaded side

### Warnings

**IMPORTANT** We know that rotary fittings are convenient. However with convenience brings drawbacks. Due to the joints in rotaries, on rare occasions the joints may dislodge after being moved around, leading to seals being disengaged. On the rare occasion of this occurring, we recommend removing the fitting, pressing in on

the joints and rotating them. Then test the fitting for leaking as this will typically fix the issue. We also highly recommend using pressure valves with any rotary fittings. Not responsible for any hardware damage. Use at your own risk.

### Additional Information

---
