

PrimoChill Male to Female G 1/4in. 90 Degree SX Elbow Fitting

As low as
\$9.95

Product Images

Short Description

The PrimoChill Male to Female G 1/4in. 90 Degree Elbow Fitting is an easy solution when trying to change direction quickly with your loop. Note: Due to having no rotary function the direction of the fitting is dictated by the component it is used on. (Meaning once the fitting is installed, the direction of the outlet cannot be changed) This adapter is best used in a situation where you can move the component, like a fillport or another rotary adaptor.
