

PrimoChill Male to Female G 1/4in. 90 Degree SX Rotary 20mm Extension Elbow Fitting

As low as
\$12.99

Product Images

Short Description

The PrimoChill Male to Female G 1/4in. 90 Degree SX Rotary 20mm Extension Elbow Fitting is an easy solution when trying to change direction quickly with your loop. This adapter is great for redirecting tubing runs away from components at unconventional angles. The rotary function allows you to aim the connection in any desired direction 90 degrees from the mount. The 20mm extension gives added clearance should other components be in the way or a bit more height is needed for a perfect fit.

- 1x Male to Female G 1/4in. 90 Degree SX Rotary 20mm Extension Elbow
- 1x Installed oring on male threaded side

Warnings

IMPORTANT We know that rotary fittings are convenient. However with convenience brings drawbacks. Due to the joints in rotaries, on rare occasions the joints may dislodge after being moved around, leading to seals being disengaged. On the rare occasion of this occurring, we recommend removing the fitting, pressing in on the joints and rotating them. Then test the fitting for leaking as this will typically fix the issue. We also highly recommend using pressure valves with any rotary fittings. PrimoChill is not responsible for any hardware damage. Use at your own risk.

Additional Information

Brand	Primochill
SKU	FA90E20
Weight	0.1000
Fitting Type	Rotary
Fitting Angle	90 Degree
