## Short Description

---

The XSPC Ion is a compact reservoir for PC water cooling. The Ion's versatile bracket can easily be mounted to any 120/140mm fan, fan mount, or radiator and can rotate to four different positions. This allows the reservoir to be mounted in the majority of PC cases, without the need for any modifications.

## Description

---

The XSPC Ion is a compact reservoir for PC water cooling.

The Ion's versatile bracket can easily be mounted to any 120/140mm fan, fan mount, or radiator and can rotate to four different positions. This allows the reservoir to be mounted in the majority of PC cases, without the need for any modifications.

On each side of the Ion is a G1/4" inlet port and outlet port, making it easier to neatly route the tubing in your build. On the top of the Ion is a large M20 fill cap, for easy filling and topping up of the reservoir.

The Ion's internal reservoir is encased in a high quality, extruded and CNC cut aluminium shell. The internal acrylic reservoir is LED backlit to light up the coolant and viewing window. The Ion is supplied with a white LED, but it's easily replaceable with our blue, red, green, yellow, orange and UV LEDs. This makes it simple to perfectly match the lighting colour of your PC build.

Each Ion reservoir is carefully hand assembled and pressure tested before sale, to ensure reliability and quality.

## Specifications

---

Specification:

Dimensions: 58 x 50 x 154mm (excluding accessories)

Coolant Capacity: 160ml  
Shell Material: Aluminium  
Reservoir Material: Acrylic  
Maximum Temperature: 60C  
Inlets: 2 x G1/4"  
Outlet: 2 x G1/4"  
Fill Cap: 1 x M20

*Includes 2x G1/4" Plug*

## Additional Information

---

Brand	XSPC
SKU	XSPC-ION-RES-BK
Weight	2.5000
Color	Black
Reservoir Type	Tube Res
Tube Res Length	150mm
Vendor SKU/EAN	5060175587398
