Short Description

ChipSink is a complete range of passive heatsinks, specifically designed to correctly cool chips integrated into motherboards, such as: frequency generators (PLL), power supply regulators (MOSFET), peripheral control chipsets (SouthBridge) and integrated controllers (RAID, SATA).

Description

ChipSink is a complete range of passive heatsinks, specifically designed to correctly cool chips integrated into motherboards,

such as: frequency generators (PLL), power supply regulators (MOSFET), peripheral control chipsets (SouthBridge) and integrated controllers (RAID, SATA). Microcool has developed these coolers so that they can be easily installed on the above components when the motherboard is purchased. These components do not generally have adequate cooling systems and are always subjected to intense heat during system overclock and overvolt. The high quality, heat-conducting double-sided sticky tape allows for speedy application and maximum heat transferral. The anodized surface ensures electrical insulation and maximum heat dissipation through radiation.

Features

- Versatile and compact design
- Easy to install
- Superior heat-conductive adhesive
- Anodized and not electrically conductive
- Available in black and silver

Specifications

	South Sink	PLL Sink	MOSFET Sink	Micro Sink
Dimensions	30(L)x30(W)x30(H) mm	15(L)x12(W)x18(H) mm	12(L)x12(W)x18(H) mm	8,5(L)x8,5(W)x8(H) mm
Material	Extruded aluminium 6063	Extruded aluminium 6063	Extruded aluminium 6063	Extruded aluminium 6063
Coating	Anodized aluminium	Anodized aluminium	Anodized aluminium	Anodized aluminium
Adhesive	Chomerics T405 Thermal interface pad	Chomerics T405 Thermal interface pad	Chomerics T405 Thermal interface pad	Chomerics T405 Thermal interface pad
Weight	30g	5g	4g	1g

Function	Southbridge cooling	PLL cooling	MOSFET cooling	Mini MOSFET cooling
----------	---------------------	-------------	----------------	---------------------

Additional Information

Brand	Microcool
SKU	MC-MOSFET-SL-D
Weight	0.2000
Color	Silver
Special Price	\$0.89
