Short Description

Keep your PC build cool and quiet with the MasterFan MF120R ARGB 120mm Fan from Cooler Master.

Description

Keep your PC build cool and quiet with the MasterFan MF120R ARGB 120mm Fan from Cooler Master. This package comes with one 120mm cooling fan. Features include addressable RGB lighting that's compatible with most RGB-capable motherboards, noise-reduction technology, sound-absorbing rubber pads, a hybrid blade design, and smart sensors that help to prevent cable snags.

Features

Addressable RGB Color Customize your fan colors as you see fit. Compatible with ASUS Aura, ASRock RGB, Gigabyte RGB Fusion, and MSI RGB. **Cooling Technology** Boasts a mix of noise-reduction technology and sound-absorbing rubber pads designed for quiet operation even when your PC is working overtime. **Hybrid**

Design A combination of jet engine and helicopter blade designs helps to deliver the static air pressure you need without sacrificing airflow. Smart Fan Sensors Designed to protect your cables and components from getting snagged, damaged, or pulled by your fans.
