Features

8000 dpi gaming-grade sensor

Responds precisely to movements.

Logitech G HUB gaming software

Gives you easy control to customize and access advanced features. Customize by game, connect to 3rd party apps such as Discord, or download and share custom game profiles with the Logitech G community.

LIGHTSYNC color wave RGB

Featuring color wave effects customizable across 16.8 million colors. Game-driven, audio visualization and screen mapping options are also available.

Optical technology

The LED lights scan the surface beneath the mouse to detect movement with a fair amount of accuracy suitable for everyday computing and browsing.

Classic gaming shape

Play comfortably and with total control.

Compatible with most Windows, Chrome and Mac computers

Works across a wide array of computers.

6 buttons

Fully programmable with G HUB software.
