Short Description

The weight of the forearm is supported by the arm rest. This reduces localized pressure on the wrist and eliminates the constant strain on muscles in the neck

Description

The weight of the forearm is supported by the arm rest. This reduces localized pressure on the wrist and eliminates the constant strain on muscles in the neck, arms and shoulders that so many computer users experience. It can be adjusted to the desired position and while the forearm is placed on top the pad locks itself in place. It allows for stability when using a mouse. When not in use it can be turned completely sideways allowing an easy access to the chair. An interesting feature of the pad is that the pad can be easily lifted and completely removed.

Features

- Can be adjusted horizontally. It's 2 pivot points designed for ergonomic comfort 8.5 inches length at maximum extension
- Reduce the stress from cervical vertebrae shoulder arm and wrist. Relieving 90 percent of the weight undertaken by your wrist Strong and durable support up to 10kgs or 22lbs.
- Avoid cervical vertebrae ache mouse hand and nearsightedness by keeping correct posture with this Computer Desk Arm Rest.

Specifications

Specifications

Brand	IO Crest
Manufacturer Part Number	SY-ACC65088
Manufacturer	Syba
Assembled Product Weight	1.750 Pounds
Model	SY-ACC65088
Color	Multicolor
Assembled Product Dimensions (L x W x H)	14.00 x 7.00 x 5.00 Inches

Additional Information

Brand	SYBA
SKU	SY-ACC65088
Weight	1.7000
Color	White/Gold
Special Price	\$25.49
