Short Description

The Enterprise Solution reservoir for 4U enclosures offers many connection options and a high filling volume for water cooling systems that enables them to run as long as possible without maintenance.

Description

The Enterprise Solution reservoir for 4U enclosures offers many connection options and a high filling volume for water cooling systems that enables them to run as long as possible without maintenance.

Features

Installation

On the bottom side there are mounting possibilities for four M3 screws to mount the reservoir at any position in the case. The screw holes are spaced 60 and 30 mm apart. The connection possibilities are more than extensive, with five G1/4" thread entries at the front and rear.

Structure

The reservoir can hold up to 300ml of liquid. The case consists of PMMA and is therefore extremely robust. The front and back are made of 9 mm thick, transparent acrylic. Two LED strips, each with 6 blue shining LEDs, facilitate reading the filling level. Three of the G1/4" threads are based on Alphacool's patented system, which allows the plugs to be flush with the housing.

Specifications

Technical data:

L x W x H: 10.5 x 7.5 x 8.2cm
Filling Quantity: 300ml
Connections: 5x G1/4
Weight: 500g
Lighting: 2 x LED strips
Connection LEDs: 3-Pin
Colour of the lighting: Blue
Material: PMMA

Color: black
Manufacturer: Alphacool
Preinstalled pump: No
Connector: G1/4" inner thread
Fillport: G1/4" inner thread
LED hole: Not available
Material: POM
Model of reservoir: Other reservoirs
Pump compatibility: For DC-LT

Additional Information

Brand	Alphacool
SKU	AC-15386
Weight	2.0000
Color	Black
Reservoir Type	Free Standing Tank
Vendor SKU/EAN	4250197153621
