

Alphacool tubing AlphaTube HF 16/10 (3/8"ID) - Ultra Clear 3m (9,8ft) Retailbox

\$17.50

Product Images

Short Description

A water cooling system consists of many different elements. Pumps, radiators, cooling blocks, reservoirs and often other components. In order to build up a functional water cooling system, these components must of course be connected to each other. The easiest way to do this is use tubing. Here the Alphacool AlphaTube HF tubing is the best choice.

Description

A water cooling system consists of many different elements. Pumps, radiators, cooling blocks, reservoirs and often other components. In order to build up a functional water cooling system, these components must of course be connected to each other. The easiest way to do this is use tubing. Here the Alphacool AlphaTube HF tubing is the best choice.

Optics

In different vivid colors, clear and also UV-active. The AlphaTube HF tube offers a large selection of different colours and styles making it easy to find the hose that best suits your taste.

Application

The AlphaTube HF tubing has the perfect flexibility to be easily installed. It is flexible enough to be laid without effort, but at the same time rigid enough that it will not kink easily, even with tighter bending radii.

Available in different sizes.

We offer the AlphaTube HF hose in all common sizes.

Specifications

Technical data:

- Length: 3 m
- Tube size: OD 16 mm / ID 13 mm
- Material: PVC
- Hardness grade: 65-70 A-Shore
- Working temperature: -10 - 80°C
- Burst pressure: 8 bar
- Working pressure: 2 bar

Technical details:

Manufacturer:	Alphacool
UV - color:	Non UV-active
Color:	Transparent
Outer diameter:	16mm (5/8")
Inner diameter:	13mm (3/8")
Material:	PVC
Length:	3,00m
Max. Operating pressure:	2 bar (bei 20°C)

Service temperature: -10°C bis 80°C

Additional Information

Brand	Alphacool
SKU	AC-17497
Weight	3.0000
Color	Clear
Tube Type	PVC
Tube Size	3/8" x 5/8" (10mm x 16mm)
Material	PVC
Delivery	Retail Box
Vendor SKU/EAN	4250197174978
