Short Description

28Pcs 1/4" Ratchet Wrench set includes multiple sockets

Description

28Pcs 1/4" Ratchet Wrench set includes multiple sockets, which includes a Non-slip aluminum alloy multi-purpose handle, In which has a rod extension which can be used extend the reach of the bit you are using

Features

1. Non-slip aluminum alloy multi-purpose handle, drilling and carving process, non-slip, not easy to rust, can be flexibly matched with different batches.
2. There is an extension rod, which can help the bit extend into the machine for easy maintenance.

- 3. The handle of the small wrench can also be used to remove the lower part of the grip. It can be used after being disassembled, which is more suitable for very small spaces.
- 4. CR-V chrome vanadium steel alloy sleeve/batch has the advantages of high hardness, and is rust and wear resistant. The surface is plated with bright chrome, which is very beautiful and anti-rust.
- 5. The product has powerful functions, wide application, small size and light weight.
