PRODUCT REALITY SHOW

Features

- Made of aluminum alloy, it has excellent heat dissipation effect.
- The cooling vest is compatible with M.2 interface 2280 specification SSD, while it does not interfere with PCI-E slot equipment.
- 16 million color achieves a fixed monochromatic, rainbow, and multi-color cycle.

Specifications

Specifications:

- Item Name: SSD Heatsink
- Material: AluminumSuitable: for M.2 2280 SSD
- Light Effect: ARGB
- Features: Heat Dissipation, Color Changing, Anti-rust
- Size: 74mm x 25mm x 13.3mm/2.91" x 0.98" x 0.52" (Approx.)

Additional Information

Brand	AE
SKU	AE-TL-M22280-ARGB-D
Weight	0.4000
Color	RGB
Heatsink Type	SSD/HDD/M.2 NVME
Material	Aluminum
Special Price	\$19.46
