Short Description

The GH-01 A-RGB uses a modular design for all of its components, along with hand screws, so installation is convenient and easy.

Description

The GH-01 A-RGB uses a modular design for all of its components, along with hand screws, so installation is convenient and easy. The design of the GH-01 A-RGB is optimized using an incredibly logical structure. The materials are carefully selected and the manufacturing process meets the strictest standards to achieve the most reliable quality. Such high standards allows for the GH-01 A-RGB to easily support a 5Kg graphics card.

Features

- Equipped with 9pcs of Addressable RGB LEDs. Can be synced with other 5V ADD-RGB devices by M/B.
- Structured with the uniquely designed metal frame and plastic base, coated with premium metallic paint.
- The unique wire hiding function keeps the interior appearance clean and tidy.
- The modular designs on all the components along with hand screws make installation convenient and easy.
- Its logical structure is made with reliable material and undergoes a strict manufacturing process. It can easily support a 5Kg graphics card.
- It utilizes a unique saw-tooth adjustment mechanism and a dual-hole installation design. Easy to install and use.
- Support computer cases of different models (with or without a power supply shield). Installation of a base extension (included) is required for cases without a power supply shield.

Specifications

Technical Spec

Overall Dimension(Type A)	52.6×60.6×163.73mm (W×D×H)
Overall Dimension(Type B)	52.6×60.6×267.63mm (W×D×H)
Support Range(Type A)	47.2~154mm
Support Range(Type B)	161~255mm
Net Weight	306g
Cable length	250mm
LED Rated Voltage	DC 5V
LED Rated Power	1.2W
LED Control	M/B with 5V ADD-RGB Header

Additional Information

Brand	AE
SKU	AE-DEEPCOOL-GH-01-D
Weight	0.5000
Color	Black
Vga	AMD Radeon RX 6800XT Nitro+
Block Accessory Type	VGA Holder
Special Price	\$25.46
