Description

Get ready to lock your target and embrace victory with the ROG Gladius II Origin optical gaming mouse, the third in the Gladius family. The Gladius II Origin has an advanced 12000 DPI optical sensor for fast response and precise control, ergonomic right-handed design to ensure you stay comfortable during extended gaming sessions and Aura Sync lighting technology to outshine the competition. Gaming-Grade Optical Sensor Every strike is critical. At the heart of ROG Gladius II Origin is an optical sensor that provides you with the accuracy and precision needed to take down the opposition. Exclusive Push-Fit Switch Socket Design ROG Gladius II Origin features the ROG exclusive push-fit switch socket design that allows you to easily change switches to vary click resistance. The option of replacing worn or broken switches also extends the lifespan of your mouse. Aura Sync Lighting ROG Gladius II Origin is designed to dominate – and it looks the part with aggressive aesthetics and ASUS Aura RGB lighting technology. With six customizable pre-set light effects and incredible performance, the Gladius II Origin is primed for battle! Perfect Synchronisation Achieve perfect RGB lighting synchronization across your Aura Sync-enabled products to complete the look of your battle station. You can sync lighting effects to in-game action, music, and more! Detachable Cable ROG Gladius II Origin has a detachable cable design and comes with two types of cables and a ROG pouch, so you don't have to pack your cable whenever you want to move – just leave one on your desk and the other in the ROG pouch, detach your mouse, and get going! ROG Armoury The intuitive ROG Armoury software lets you easily adjust settings to suit your gaming style. Customize lighting effects, adjust performance and surface calibration settings, program and map buttons, create profiles and more.

Features

- Precision movement and aiming delivered by a battle-tested PixArt PMW3360 Optical Sensor (12000 DPI Optical, 50G Acceleration, and 250 IPS)
- Omron switches rated for 50-million-clicks feature a push-fit socket design for easy swapping
- USB wired optical gaming mouse designed to fit all grips with clickable scroll wheel, DPI switch, and quick-release micro-USB
- ASUS Aura Sync RGB lighting in three different zones features a nearly endless spectrum of colors with the ability to synchronize effects across an ever-expanding ecosystem of Aura Sync enabled products
- ROG Armoury software for easy customization of buttons, performance and lighting settings
