# Description

Bitspower Summit CPU Block for Socket LGA 4189

With high processing power come high heat management expectations. In order to keep your Intel Ice Lake Xeon processor under optimum working conditions, Bitspower brings forward the ultimate water block for the LGA 4189 socket with the Summit CPU block. Engineered for direct water injection, the Summit block manages the heat with a high flow of coolant directly on top of the fins, keeping the CPU under low temperatures without wasting a second. Fashioned with the copper top layer and base plate, the Summit CPU block features a narrow footprint to ensure it doesn't interfere with the RAM slots.

** Introductory Offer: First 3 cusomers will get this exoticly designed block for only $99.99! Grab the deal while you can!!
