NOTE: D5 Pump and Cover Not Included.

Channelz Effectz Service

Tired of all that colored Coolant clogging up your loop but don't want to stick with some boring old clear coolant? Well Performance-PCs has you taken care of with their new Channelz Effectz Service! This service is a great way to add some color to your Channelz distribution plate without clogging your loop with pastel or mica filled coolants. We use an epoxy resin mixture that is safe for your loop and will certainly help that build POP. There is 30 different super vivid color options to choose from and we even added the ability for you to mix colors to give your loop its own style.

Features

Installation:

Compatible with the Fractal Define 7 Series (not compatible with the Define 7 Compact). Install next to the motherboard on the side of the 24pin power connection using the included 4x M4 22mm Button Head Hex Bolts and M4 Nuts. First the case cover panel will need to be removed. The distribution plate mounting holes align with the existing mounting holes on the case.
