Description

Give your desktop access to gigabit speeds with the XG-C100F 10 Gb/s PCI-E Network Adapter with Fiber/DAC SFP+ Port from ASUS. This PCI-E NIC fits into a PCI-E 2.0/3.0 x4 slot and gives your desktop support for up to 10 Gb/s networking speeds. The SFP+ connector module supports both optical fiber and Direct-Attach Copper (DAC) cables (not included). This kind of speed is ideal for regular large file transfers, streaming Ultra HD 4K video, and low-latency online gaming. Built-in QoS helps you prioritize bandwidth and a built-in heatsink keeps everything running cool.

Features

QoS

QoS technology allows you to automatically prioritize network bandwidth to maximize speeds for your most important applications.

Built-In Cooling

Constantly running a network adapter at speeds up to 10 Gb/s can build up a lot of heat within your system. This adapter card features a stylish red aluminum heatsink to help dissipate the heat quickly.

Multiple Brackets

Both standard and low-profile brackets can be used to maximize compatibility.
