Short Description

The Cooler Master Master Watt Bronze 750W is a modular 80 Plus Bronze certified PSU with a semi-fanless mode. Under 15% load, The masterwork Bronze fan remains idle, offering zero dBA.

Description

MasterWatt Semi-fanless Modular Power Supply

Power On With The MasterWatt

The MasterWatt is an 80 Plus Bronze power supply with an innovative semi-fanless mode. Under 15% load, the MasterWatt fan remains idle, offering zero dBA. When demand for power increases, a gradual fan curve provides measured cooling with little to no noise at any output level. Dual forward / DC-to-DC topology is employed to keep the voltage stable in all conditions. For increased performance, MasterWatt is equipped with 16 AWG power cables, which reduces resistance, thereby increasing efficiency.

Dustproof and Silent fan

The MasterWatt has been equiped with the Cooler Master developed Silencio FP fan. This fan comes with the LDB bearing design with sealed construction features the highest dustproof level of IP6X and longer lifespan of up to 160,000 hours. The semi-fanless mode makes sure the fan operates at 0dB under 15% load. This means you can start to experience noise-free computing when doing regular PC work or when your surfing on web.

Features

- Semi-Fanless up till 15% load
- Dual Forward and DC-to-DC Circuit Design
- 5 years warranty
- More Conductive PCI-e Cables

- 80 PLUS Bronze Certified
- Durable LDB bearing
