## Short Description

---

The Clutch GM50 Gaming Mouse from MSI offers gamers performance, aesthetics, and ergonomics. It's built with a PMW-3330 optical sensor, which has a range of 400 to 7200 dpi for precise and accurate tracking.

## Description

---

The Clutch GM50 Gaming Mouse from MSI offers gamers performance, aesthetics, and ergonomics. It's built with a PMW-3330 optical sensor, which has a range of 400 to 7200 dpi for precise and accurate tracking. Use its dpi switch to swap through different steps and MSI's software to fine-tune its settings. Moreover, this mouse has customizable RGB lighting via MSI's software for changing colors, effects, and even syncing it with other compatible LED-lit products. For comfort, this mouse is ergonomically designed for right-hand use and has anti-slip side grips.
