\$139.95

## Product Images

## CHERRY MX LOW PROFILE RGB RED SWITCH

A reduced travel distance and actuation point with the same signature durability and precision

## Short Description

---

The SK650 Mechanical Keyboard is a slim keyboard with all the signature Cooler Master features like On-the-Fly Controls and RGB backlighting - but it adds new Cherry MX Low Profile Red Switches.

## Description

---

### SK650

Keep A Low Profile

The SK650 Mechanical Keyboard is a slim keyboard with all the signature Cooler Master features like On-the-Fly Controls and RGB backlighting - but it adds new Cherry MX Low Profile Red Switches. A reduced travel and actuation distance with extra-flat keycaps means you get all the precision and durability of a mechanical keyboard with the slim stylings of a minimalist chiclet keyboard. Add in a refined brushed aluminum housing and understated LED lightbars, and you have a keyboard that looks as good as it performs.

## Features

---

- Two Keycap Sets: Slightly contoured and flat set, or go with the traditional keycap profile set for that familiar look and touch
- Cherry MX Low Profile Switches: A reduced travel distance and actuation point with the same signature durability and precision
- Brushed Aluminum Design: Slim top plate, floating keycaps, and minimalistic, tenkeyless design built with functionality in mind
- Keep It Light with LEDs: Keep the lightshow going with per-key backlighting and surrounding lightbars with endless customization

- On-the-Fly Controls: Make real-time adjustments to lighting and macros with no software necessary
