Short Description

SIIG's SuperSpeed USB 3.0 Gigabit LAN Adapter - Black instantly adds a Gigabit LAN port (RJ45) to your laptop or desktop computer through USB 3.0 connection.

Description

SIIG's SuperSpeed USB 3.0 Gigabit LAN Adapter - Black instantly adds a Gigabit LAN port (RJ45) to your laptop or desktop computer through USB 3.0 connection. It delivers high performance packet transfer rate of up to 1000 Mb/s over your Ethernet network to support high speed, large files transferring. Built-in data diagnostic LEDs allow you to monitor your network connection at a glance. Compact and light-weight design provides instant wired Ethernet connection while on-the-go. It is a perfect LAN accessory to cost-effectively enhance your existing computer's networking capability.

Features

- USB TO ETHERNET ADAPTER provides an ultra-fast wired USB 3.0 to Gigabit LAN (RJ45) Ethernet connection. Backward compatible with USB 2.0/1.1 standards
- HIGH PERFORMANCE: Delivers a packet transfer rate of up to 1000 Mb/s over your Ethernet network to quickly transfer large files
- COMPACT AND LIGHTWEIGHT DESIGN: A perfect LAN accessory while on-the-go that cost-effectively enhances your existing computer's networking capability for video streaming, gaming, or data management
- PLUG AND PLAY: Driver-free installation compatible with almost any computer with MAC 10.x or WINDOWS 8/10. Supports Wake-on-LAN, power-saving, full duplex with flow control and half duplex, as well as crossover detection and auto-correction

- BUILT-IN DATA DIAGNOSTIC LED: Monitor your network connection and power status at a glance

Specifications

Connectors

- 1x 9-pin, USB 3.0, A-Type, Male
- 1x 8-pin, RJ45 with 2 LED indicators, Network, Female

Specifications

- Chipset: Realtek RTL8153
- Compliant with Universal Serial Bus 3.0 Specification and backward compatible with USB 2.0
- Supports full duplex operation with IEEE 802.3x flow control and half duplex operation with back-pressure flow control
- Compatible with IEEE 802.3, 802.3u
- Supports IEEE 802.3az (Energy Efficient Ethernet)
- Supports IEEE 802.1Q VLAN tagging
- Supports IPv4/IPv6 packet Checksum Offload Engine to reduce CPU loading
- Supports IEEE 802.1P Layer 2 Priority Encoding

Additional Information

Brand	Siig
SKU	JU-NE0611-S2
Weight	0.1000
Color	Black
Connector Type	USB Adapter
Gender	Male/Female Set
Special Price	\$10.98
