## Choose Your Style

### Q500L

The MasterBox Q500L supports a standard ATX motherboard and PSU in a highly compact layout, made possible by maximizing the usage of internal space. The mounting bracket allows for the repositioning of the PSU depending on form factor. For instance, if a mini ITX motherboard is used instead of an ATX in the MasterBox Q500L, the PSU can be mounted in the conventional position of the bottom, rear to allow for increased front panel ventilation and configuration options.

## Features

### Features

#### Magnetic Dust Filters

Magnets allow quick removal and installation for easy cleaning of the dust filters.

#### Minimized Dimensions, Standard ATX Support

The MasterBox Q500L supports standard ATX motherboards and PSUs, with a body depth and height of only 386 mm x 381 mm.

#### Fan/Radiator Support

Support for the following fan/radiator form factors: TOP 120/240 mm radiator, 120/140 mm x 2 fans, REAR 120 mm radiator or fan, BOTTOM 120 mm x 2 fans.

### Features

#### Drive Bay Support

2 combo 3.5/2.5" drive bays—each bay supports 1 HDD or 2 SSDs.

#### 6-orientation I/O Panel

Orientation for the chassis is versatile, with the option to move the I/O Panel to 6 different locations: left and right—top, side and bottom.

#### Vertical PSU Placement

The PSU is positioned on the front of the chassis to fully utilize internal space. The bracket can be relocated to offer position options depending on preference and form factor.

#### Clean Routing Space

Behind the motherboard tray, 27–30 mm width of space is offered for cable management.
