Product Images

Short Description

The Level 20 GT RGB Gaming Keyboard enhances your gameplay with a premium aluminum top plate construction and a floating keycap design.

Description

The Level 20 GT RGB Gaming Keyboard enhances your gameplay with a premium aluminum top plate construction and a floating keycap design. It features 16.8 million RGB color illumination with 13 front-side illumination LED's for a truly personalized RGB experience. With the powerful iTAKE Engine, users can control all dynamic lighting effects, complex macro settings, and SYNC across all compatible TT RGB PLUS products.

Features

RAZER GREEN SWITCH

For those who want to feel and hear every keypress, the Razer™ Green Mechanical Switch features a tactile bump and distinctive click sound along with optimized 1.9mm actuation point for best in class gaming and typing performance. Guaranteed 80 million keystrokes per switch with no loss of quality for maximum durability.

ALUMINUM TOP PLATE CONSTRUCTION

Features a distinctive curved design with a 2mm thick aluminum top plate construction for enhanced strength, durability, and structural rigidity, whilst at the same time combining a stunning cohesive look with unrivaled performance.

A WHOLE NEW LEVEL OF LIGHTING

Customize and personalize your lighting with 16.8 million true RGB color with a massive 13 front-side illumination for the most dynamic and flamboyant lighting effects to liven up your gameplay. Select from a host of unique lighting effects such as: three mode sound control, system temperature, or setup your own customized colors in a matter of seconds

DEDICATED MULTIMEDIA CONTROLS

Keep your sound controls within reach and command on-the-fly: volume, mute, skip, and play and pause controls with effortless ease

AUDIO & USB PASS THROUGH PORT

Perfectly placed for convenient connection of your audio and USB compatible device for uninterrupted game play. Connect a device for charging or plug in your headset/mouse for quick and easy plug and play action.

iTAKE Engine

Take control of all dynamic lighting effects, complex macro settings, and TT SYNC across all compatible TT RGB PLUS power supply, liquid cooling, case fan, LED strip product lines, and TT gaming peripherals.

TAKE YOUR DEVICE TO THE NEXT LEVEL

With dedicated iOS & Android compatible app that features unique features such as: voice controlled AI, virtual game controller, and virtual keyboard functionality.
