Short Description

Record and stream your gaming highlights with low-latency using the Game Capture HD60 Pro High Definition Game Recorder from elgato.

Description

Record and stream your gaming highlights with low-latency using the Game Capture HD60 Pro High Definition Game Recorder from elgato. This capture card has a PCIe x1 interface, which can fit into any PCIe x1/x4/x8/x16 slot, and supports up to 1080p at 60 frames per second. Advanced hardware H.264 encoding lets you capture in HD while keeping file sizes small. Game freely and never miss a moment with Flashback Recording – simply slide back in time on your PC and hit the record button retroactively. For streaming, Stream Command lets you add in your webcam, overlays, live commentary, and more. The Game Capture HD60 Pro can record PlayStation 4, Xbox One, Xbox 360, and Wii U gameplay to a Windows PC via a HDMI pass-through.

Features

Record in 1080p at 60 fps

Live stream your gameplay on Twitch and YouTube

Instant Gameview provides you with an instant preview including your webcam and live commentary

Add your webcam, overlays, and more with Stream Command

Add your voice with the Live Commentary feature

Record your PS4, Wii U, Xbox 360, or Xbox One gameplay to a Windows PC

Advanced H.264 encoding HDMI pass-through to your TV

Simultaneously save a 1080p recording with separate tracks of your webcam and live commentary

Flashback Recording lets you record retroactively
