Instantly upgrade to high resolution audio 24-bit 96 kHz high-resolution USB DAC playback Studio-grade listening - the Sound Blaster PLAY!

The Sound Blaster PLAY! 3 drives a wide range of headphones—from mobile phone earbuds and gaming headsets all the way to more expensive studio-grade headphones. The downloadable Control Panel software also includes optimized profiles for select earphone brands.

## Features

---

### Instantly Upgrade to Hi-Res Audio

Once you upgrade from motherboard audio, you'll never go back to it again. The Sound Blaster PLAY! 3 provides such an upgrade, by giving you high resolution 24-bit 96kHz audio for your music, movies, and games.

### Studio-Grade Listening

The Sound Blaster PLAY! 3 drives a wide range of headphones — from mobile phone earbuds and gaming headsets all the way to more expensive studio-grade headphones. The downloadable Control Panel software also includes optimized profiles for selected earphone brands.

### Crisp Voice Communications and Recording

USB Connectivity greatly improves mic recording capabilities, giving you clean 24-bit 48kHz quality for podcasts or in-game communications.

#### Simple, Fuss-Free Plug-and-Play

Connecting the Sound Blaster PLAY! 3 to PC and Mac is incredibly easy. Simply connect it to a USB port and you're good to go. No drivers necessary.

#### Convenient Headphone Connectivity

The Sound Blaster PLAY! 3 lets you connect your headsets with single or split stereo/mic connectors easily, removing the need for a Y-splitter cable.

#### Control Panel

The downloadable Sound Blaster PLAY! 3 Control Panel software provides powerful control over your listening experience with audio realism and immersive audio effects that enhance your music, entertainment and games.

#### SBX Pro Studio

SBX Pro Studio increases and expands virtual surround spaciousness, allowing you to enjoy cinema-quality sound in the comfort of your home. Specially designed sound profiles improve the audio experience for all headsets.
