Short Description

The Sound Blaster K3+ is an external sound mixer module with hardware audio processing such as reverb, bass/treble tuning, and soundboard effects.

Description

The Sound Blaster K3+ is an external sound mixer module with hardware audio processing such as reverb, bass/treble tuning, and soundboard effects. It boasts multiple connectivity inputs, supports 48V phantom powered condenser microphones and features individual input/output gain control. Practical and user-friendly, the Sound Blaster K3+ is perfect for streamers and musicians alike.

XLR / TRS Combo Inputs and Outputs

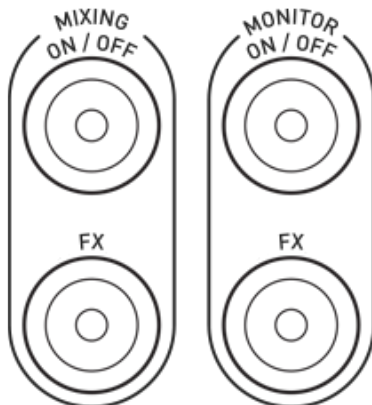

The K3+ has two XLR / TRS combo inputs which are compatible for most microphones in the market. There's also a built-in microphone amplifier that allows for high quality voice output for live commentary or singing.

Features

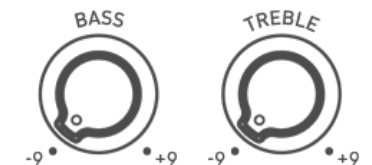

Choose from a total of 9 built-in reverb effects! You can further customize these settings by adjusting the amount of reverb and the amount of delay.

Flexible Monitoring

Suitable for karaoke and singing, the Sound Blaster K3+ allows users the flexibility between monitoring wet or dry recordings.

Treble and Bass Adjustment

Users can make tweaks to their vocals, controlling their bass and treble settings easily.

Independent Volume Control

The K3+ offers complete independent volume control for input and output channels, so the volume can be changed easily while mixing.

5

Voice-Over Effect

Perfect for gaming streams and podcasts, the Sound Blaster K3+'s Voice-Over Effect suppresses background audio when you speak, so your voice is always clear.

6

SoundBoard Clips

The K3+ comes built-in with 6 sound effects that can be easily selected and triggered anytime during streaming or broadcasting. These include VIP Entrance, Cheers, Baby Laughter, Audience Laughter, Gunshots, and Crow Caws.
