Bitspower Sedna O11D Lite-F for LIAN LI O11 DYNAMIC Series

For those of you looking to bring extra customization to your LIAN LI O11 DYNAMIC series cases, Bitspower offers a customized reservoir and pump combo under the name of Bitspower Sedna O11D Lite-F. Designed to replace the front panel of the case, this distribution reservoir features a quiet pump that will keep your liquid moving at the right pace, and a clear finish, that will turn your case in a work of art.

With novice modders in mind, Bitspower designed a reservoir that is easy to install while providing a professional look. Equipped with multiple 1/4" water inlets and outlets to route the water from the radiator to the VGA than the CPU, this water distribution reservoir also gives you more playroom for the graphics card location with a dual inlet/outlet designed to prevent having to bend more tubes and create a cleaner look to your loop.

The Bitspower Sedna O11D Lite-F, equipped with Bitspower Digital RGB, is sure to become the center of attention of your case with bright LEDs that are certified by ASUS AURA Sync, GIGABYTE RGB Fusion, MSI Mystic Light Sync, ASRock Polychrome, BIOSTAR VIVID LED DJ, and Razer Chroma.
