

# ASUS RGB Mechanical Gaming Keyboard - ROG Strix Scope TKL | Cherry MX Brown Switches

\$109.99

## Product Images

## Short Description

---

Designed for FPS gaming, the ROG Strix Scope TKL features responsive Cherry MX Brown

## Description

---

Designed for FPS gaming, the ROG Strix Scope TKL features responsive Cherry MX Brown RGB switches with ASUS Aura Sync RGB lighting and 2x wider CTRL key. Free up space with small footprint on your worktop for broader mouse movements – perfect for the lower sensitivity settings to leveled-up aiming accuracy.

## Features

### MADE FOR PORTABILITY

The compact and frameless design of ROG Strix Scope TKL Deluxe is ideal for minimalists, or those who simply need more space. The keyboard comes with a detachable cable, making it easier and safer to stow and carry in a backpack. The Type-C cord also doubles as a charging lead for mobile devices while on the go.

### READY FOR DAY & NIGHT

The Quick-Toggle Switch prepares ROG Strix Scope TKL Deluxe for gaming or the daily grind, toggling the top row between media or function (Fn) key input – so it's easy to switch modes for work or play. The keyboard is topped with an aluminum faceplate for everyday resilience, and finished with a striking slash aesthetic for a little touch of style.

### INSTANT PRIVACY

A quick tap of ROG Strix Scope TKL Deluxe's Stealth key instantly hides all apps and mutes all audio, assuring privacy the moment you need it. Decorated with an iconic cloaked-figure motif, a second push of Stealth puts everything back to just the way it was.

### AURA SYNC

ROG Strix Scope TKL Deluxe is loaded with vibrant RGB illumination for you to command. There's an individual RGB LED under every key, RGB lock indicators and an RGB ROG logo. It even projects an arresting RGB underglow from below, extending the lighting beyond the keyboard. Powered by Aura Sync, the entire color spectrum and a range of dynamic lighting effects are at your command to create a complete system that's uniquely yours. Strix Scope TKL Deluxe's lighting is also easily synced with the extensive Aura ecosystem, so it's easy to build a gaming environment that really shines.

### ARMOURY II

Armoury II is an enhanced driver-based software that offers more extensive controls. An intuitive UI lets you easily tune ROG Strix Scope TKL Deluxe to suit your gameplay – create profiles, customize colors and lighting effects, map keys, record macros and more. You can even track hardware stats during gameplay for data analysis.

### CHERRY MX RGB MECHANICAL SWITCHES

Constructed with Cherry MX RGB switches, ROG Strix Scope TKL Deluxe delivers the precise mechanical feel preferred by gamers and enthusiasts alike. The premium-quality switches are manufactured in Germany, and are renowned for offering optimal actuation and responsiveness with every keystroke.
