Short Description

The Corsair 110R is a minimalist mid-tower ATX case with a 4mm-thick tempered glass side panel and storage support for up to four drives, plus a 5.25in ODD drive bay.

Description

The Corsair 110R is a minimalist mid-tower ATX case with a 4mm-thick tempered glass side panel and storage support for up to four drives, plus a 5.25in ODD drive bay. A 120mm fan is included for cooling right out of the box, with the potential to fit up to 5x 120mm, 3x 140mm fans, or multiple radiators for the cooling you need. Keep your build tidy with a full-length PSU cover that keeps your PSU and cables out of sight, and three removable dust filters to keep your system clean long after the build is finished. With a USB 3.1 front I/O panel for easy access to your favorite devices, the 110R has the essential features you need to build a great PC.

Features

- The 110R's minimalist design ensures that your system can fit in almost any environment, with four high-density sound dampening panels to reduce noise.
- Supports up to four drives for the storage options you need: two 2.5in trays and two combo 3.5in/ 2.5in trays in a removable cage, plus a 5.25in ODD bay.
- Includes a 120mm fan to cool your components out-of-the-box.
- Fits up to 4x 120mm or 2x 140mm cooling fans or multiple radiators to keep your PC cool.

- Removable dust filters in the floor and front help keep your system clean long after the build is finished.
