

PPCS Reflective One Way Mirrored Window Film - 60 x 30cm

\$2.49

Product Images

Short Description

Use this vinyl sticker film to create a mirror for any of your PC mods. This works great for infinity mirror mods

and other mirror mods. One side is adhesive backed and slightly tinted, the other is a smooth mirror finish.

Each quantity ordered equals 60cm x 30cm (2 foot x 1 foot). For example, if a quantity of 3 is ordered, we will send you a 60cm x 90cm (2 foot x 3 foot)

INSTRUCTIONS FOR USE

Read it carefully and do more with love.

1. Measure windows & trim film.

2. Clean window glass.

3. Wet the window glass with soapy water.

4. Remove the film's back cover. VERY IMPORTANT!

5. Install the film to glass.

6. Squeeze out water and air bubbles.

⚠️HEAT INSULATION/ENERGY SAVING AND BASIC PARAMETERS: One-way window film blocks out 99% of infrared rays and 85% of UV rays, reducing fading and aging of interior furnishings. The heat control window film can retain heat in winter and keep it cool in summer, reducing expensive heating and cooling costs. 15% of VLT helps effectively reduce glare.

⚠️STATIC CLING AND NON-ADHESIVE: This self-adhesive window glass film is free of glue design, no chemical release, very easy to install. Just make sure window surface is completely clean and absolutely free of any blisters. Remember to use A LOT of soapy water mixture to soak both the adhesive side and window. INSTRUCTIVE USE PLEASANTLY REMIND THE FILM SHOULD BE ATTACHED TO THE GLASS.

⚠️THICKNESS AND HIGH QUALITY: Glass film thickness of 5 mil window film has excellent thermal insulation effect, with anti-scratch layer on the surface. Thicker version, won't fade and is easy to remove, convenient and practical.

⚠️REVERSE EFFECT: One-way window film provides a different privacy effect during day and night. The one-way window film provides great privacy during daytime only and outside glass shows mirror effect. As the outside light becomes weaker, the mirror effect of outside glass will disappear gradually and outside people can see inside when the inside light is stronger than outside. The mirror effect will be reversed. Remember to draw curtain during night.

⚠️AFTER-SALES SERVICE: 7 days return policy guarantee against any product defects guarantee. Any question, feel free to contact us. You will have a perfect shopping experience. Now Click "Add to Cart", ready for decorating your home.

Features

Features:

- EXCELLENT DAYTIME PRIVACY. Provides great intended privacy during daytime only; the mirror-effect is reversed at night since the interior will be exposed to more light than the exterior. The side with the most light will have the mirror-like appearance.
- DARK AND REFLECTIVE to create a mirror-like appearance while reducing cooling costs during the summer through effective heat rejection.
- STRONG ADHESIVES to last many years. For easier installation, remember to use A LOT of soap/water mixture to soak both the adhesive side and window or other surface.
- HIGH QUALITY PERFORMANCE films that are sensitive by nature. Please remember to take caution when handling the film as the slightest fold will create a permanent wrinkle.
- FREE TOOLS AND EASY INSTALLATION GUIDE to make installation DIY-friendly. Make sure window or other surface is completely clean and absolutely free of any blemishes.
