

# SilverStone Technology Super Flexible one-to-Three SATA Power connectors with capacitors

\$19.99

## Product Images

## Short Description

---

SilverStone understands the trouble and headache some have when trying to get multiple SATA devices connected.

## Description

---

## SilverStone CP06-L

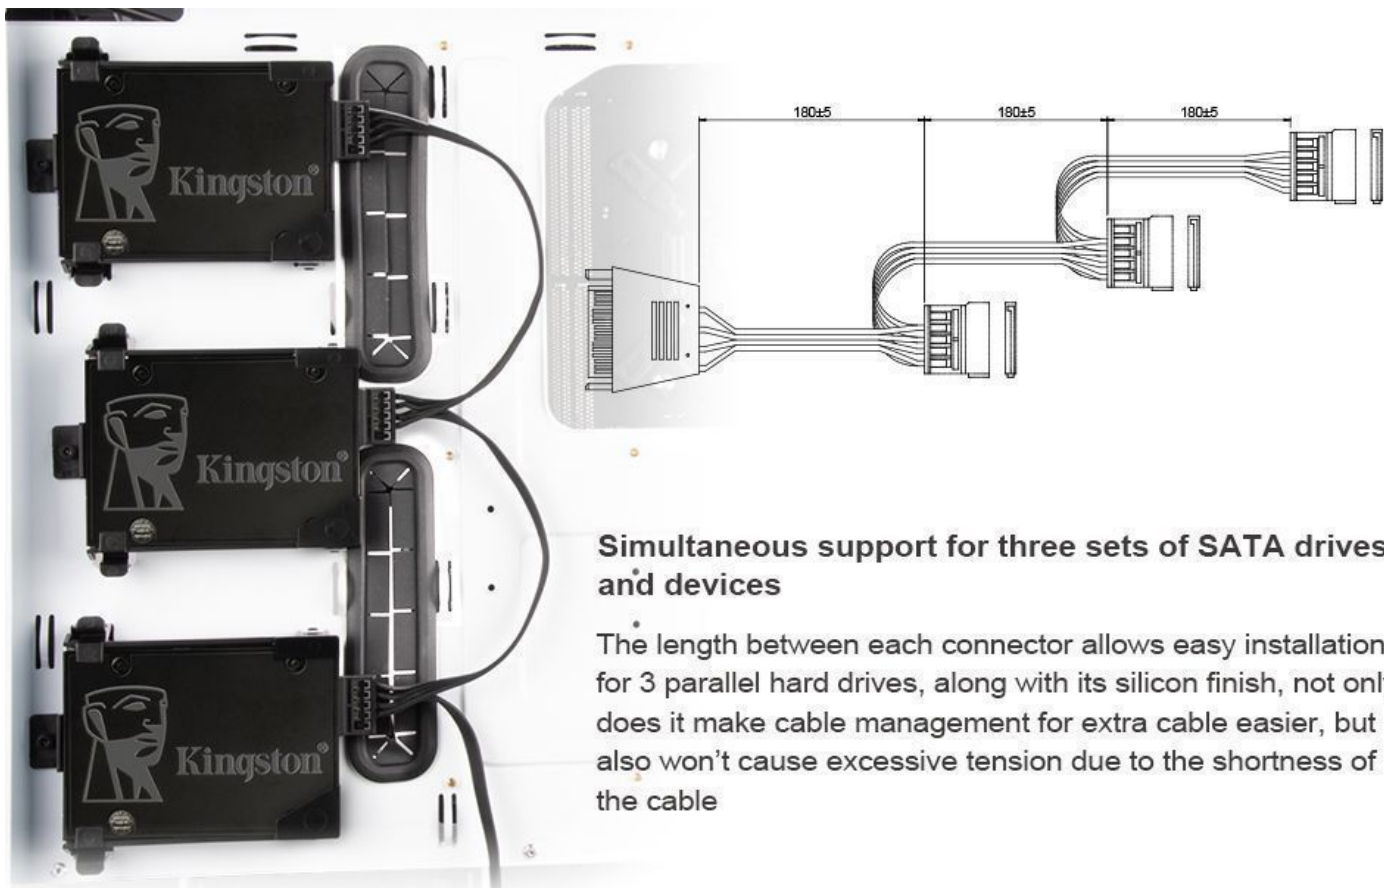

Super flexible one-to-three SATA power connectors with capacitors

SilverStone understands the trouble and headache some have when trying to get multiple SATA devices connected. To alleviate this, SilverStone developed a new generation of SATA power connector cables called the CP06-L to build on the success of previously released CP06 and CP06-E.

### Designed for parallel hard drive systems

180° angled SATA connectors allows hard drives to sit flush on to the bracket or motherboard chassis without interference or one side tilting up

## Features

---

- 180° angled SATA connectors designed for systems with parallel hard drives
- 0.08mm ultra-fine copper super flexible wires which can be bent into complex shapes
- Includes two 2200μF capacitors for stabilizing +12V and +5V voltages

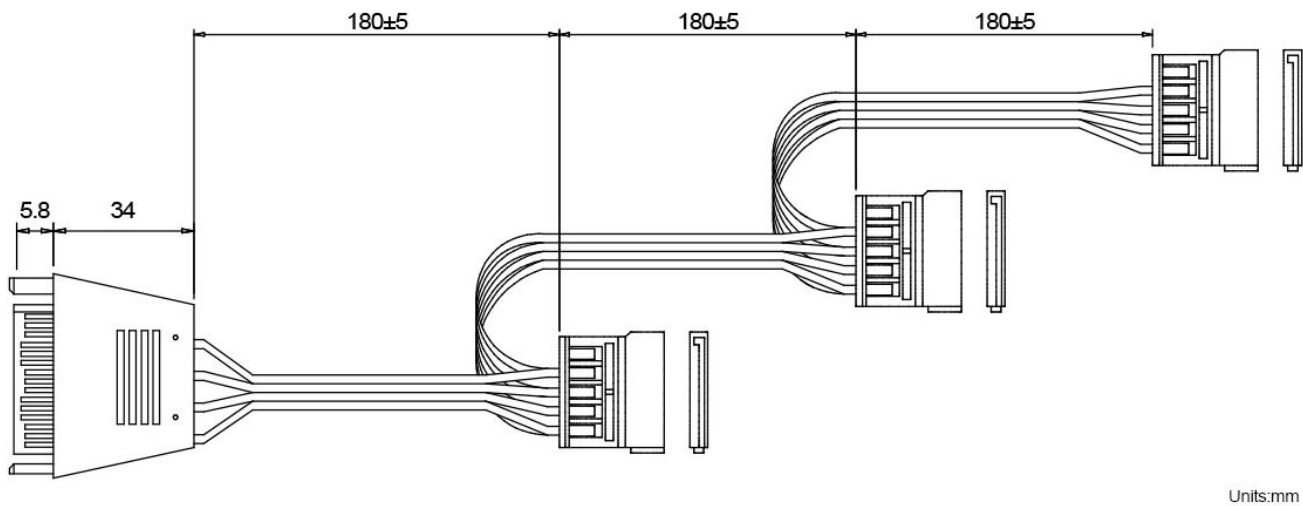

## Specifications

---

SPECIFICATIONS

Model No.	SST-CP06-L
Color	Black
Connectors	One to three 180° angled SATA 15pin connectors
Length	180mm + 180mm + 180mm
Capacitor size	2200µF

Remark :  
Warning : Do not use more than four hard drives on one single power cable.

Additional Information

Brand	SilverStone Technology
SKU	SST-CP06-L
Weight	1.0000
Color	Black
Cable Type	SATA Splitter
