Short Description

PowerWatch is Aerocool's newest and best fan controller yet! With a built in 25in1 Card Reader and a new technology called PowerUSB for Cell phone chargers, IPOD chargers and 2.5" HDD enclosures makes this 2 X 5.25" front panel all-in-one device the best on the market! With the special power-USB interfaces, it is possible to use external devices without their external power supply units. The Fan controller monitors temperatures and alters fan speed on four channels. Front audio and mic inputs complete this jack-of-all-trades wunder-panel!
