Short Description

Solar Hand Crank Emergency AM / FM Portable Radio w Flashlight Solar Panel Rechargeable

Description

1. New design: it can replace the lithium ion battery up to 5000mAh. Powerful lighting function, includes super bright flashlight, reading light and battery indicator. Color box packaging, the best gift. 2. 5W Bluetooth Speaker: DF-580, not only a hand crank radio for emergency situations, but also a 5W ipx6 waterproof, waterproof, waterproof and dustproof outdoor travel speaker. Stunning stereo effects, deep bass effects. You can bike it, camp, climb mountains or listen to music at home. Equipped with Bluetooth 5.0 technology, compatible with all Bluetooth devices. 3. Care family: Portable FM / AM radio, equipped with a flashlight in a clear weather radio, which can illuminate the road in the dark and provide SOS alerts when you need it most. Naturally unpredictable, but you can be prepared. In recent years, our emergency broadcast has helped thousands of Americans in hurricane, tornado, and blizzard seasons. 4. 5000mAh large capacity: Compared with the 1000mAh or 2000mAh emergency radio equipment on the market, the solar radio equipment has been upgraded to a replaceable 18650 mAh, 5000 lithium ion battery. That can be found in every home and is easy to buy at the local market. Hand crank, solar charging, Micro USB phone line 3 charging methods. It can be charged in a sunny day, even if it is not charged in the dark, it can be charged by shaking it by hand. At full power, always safe. 5. Super bright flashlight: If you are an outdoor sports enthusiast or need to walk in places without lights, a waterproof IPX6 radio with flashlight is a good choice. The most advanced lighting distance exceeds 10m, which is longer than most other emergency solar radios. Plus, the reading lights will help you wake up at midnight and avoid waking up your family.
