

Thermaltake Pacific TF2 Temperature and Flow Indicator

\$59.99

Product Images

Short Description

Thermaltake Pacific TF2 Temperature and Flow Indicator is a 2-in-1 design, the indicator detects coolant temperatures ranging from 0°C to 99°C (32°F -210°F) and displays the value in Celsius or Fahrenheit.

Description

Thermaltake Pacific TF2 Temperature and Flow Indicator

Thermaltake Pacific TF2 Temperature and Flow Indicator is a 2-in-1 design, the indicator detects coolant temperatures ranging from 0°C to 99°C (32°F -210°F) and displays the value in Celsius or Fahrenheit. The indicator Features temperature and low-flow warning alerts, and is compatible with any G1/4 fittings for easy installation. The TF2 grants the ability to track temperature and flow operating ranges granting total control for your water loops.

Monitoring the Temperature on TT RGB PLUS

The optimized Pacific TF2 not only reflects the temperature and the volume of flow on the screen itself but also can be tracked on TT RGB PLUS software, providing real-time information to the users.

Note:

*The information shown may include latency between TT RGB PLUS and TF2.

*TF2 Temperature and Flow Indicator only supports TT RGB PLUS software, and users must connect the specific controllers of the following water block models.

Features

Celsius /Fahrenheit Temperature Display

Pacific TF2 Temperature and Flow Indicator offers temperature readings of which the unit can be switched between Celsius and Fahrenheit, allowing users to easily track the temperature levels of the coolant.

Temperature and Low-Flow Warning Alert

Pacific TF2 Temperature and Flow Indicator is equipped with temperature and low-flow warning alert functions. The indicator continuously senses and sends beeps as an alert when the coolant temperature rises above the set value, and when the coolant flow is below the value that the users have set. The default low-flow warning alert is set to go off at 60(L/hr) and 45°C for exceeding temperature.

High quality & LCD monitor

Pacific TF2 Temperature and Flow Indicator is equipped with high quality LCD monitor that guarantees monitor durability and clear display.

Easy Installation

Designed with an easy, user-friendly setup, the Pacific TF2 Temperature and Flow Indicator allows users to easily track their temperature and flow rate by simply connecting the power cable to the unit.
