

# Flexible Grommeting 1/8" - Black

\$2.99

## Product Images

## Short Description

This grommet edging can be used to cover any sharp edge in your case. This black material can be used around fan intake and blow holes and is perfect for use with black cases to hide the cut. This molding is made of durable black PVC plastic and is very flexible. This grommet edging has a bit larger groove and so works best with the thicker panels of the Lian Li V Series cases.

## Description

This grommet edging can be used to cover any sharp edge in your case. This black material can be used around fan intake and blow holes and is perfect for use with black cases to hide the cut. This molding is made of durable black PVC plastic and is very flexible. This grommet edging has a bit larger groove and so works best with the thicker panels of the Lian Li V Series cases.

Very Low Profile and Looks very sleek!
