\$4.95

## Product Images

## Short Description

High quality Serial ATA Power Wye Cable used to connect a Serial ATA I or II hard drive and any 4-pin Molex device from a standard 4 pin Molex connector on your power supply.

## Description

---

### Product Details:

High quality Serial ATA Power Wye Cable used to connect a Serial ATA I or II hard drive and any 4-pin Molex device from a standard 4 pin Molex connector on your power supply. This new cable includes the SATA II metal latch for locking to hard drive.

- Length: 8 Inches

\*\*\* Please note picture shows an optional sleeved cable. Due to the connectors being molded the sleeving is not a simple process and requires cutting wires and recrimping pins. Standard price for cable is for bare wires. \*\*\*
