

Serial ATA II & Molex Power Wye Cable 8"

\$4.95

Product Images

Short Description

High quality Serial ATA Power Wye Cable used to connect a Serial ATA I or II hard drive and any 4-pin Molex device from a standard 4 pin Molex connector on your power supply.

Description

Product Details:

High quality Serial ATA Power Wye Cable used to connect a Serial ATA I or II hard drive and any 4-pin Molex device from a standard 4 pin Molex connector on your power supply. This new cable includes the SATA II metal latch for locking to hard drive.

- Length: 8 Inches

*** Please note picture shows an optional sleeved cable. Due to the connectors being molded the sleeving is not a simple process and requires cutting wires and recrimping pins. Standard price for cable is for bare wires. ***
