Short Description

Designed and manufactured in the USA by Performance PCs.
This is a Single Loop Distribution Plate which fits onto the front panel of the Corsair 5000X/D, inside of the tempered glass front panel window.

Description

Designed and manufactured in the USA by Performance PCs.

This is a Single Loop Distribution Plate which fits onto the front panel of the Corsair 5000X/D inside of the front panel. It has one reservoir and fits a single D5/DDC pump. It is compatible with any D5/DDC pump. It comes included with a D5/DDC Rentention Ring which attaches the pump to the Distribution plate. There are 3 ports, 1 inlet, 1 outlet and a fill port on the front of the distribution plate which can be accessed by removing the tempered glass front panel window. It comes included with a DRGB Addressable LED strip.

NOTE: D5/DDC Pump and Cover Not Included.

Channelz Effectz Service

Tired of all that colored Coolant clogging up your loop but don't want to stick with some boring old clear coolant? Well Performance-PCs has you taken care of with their new Channelz Effectz Serivce! This service is a great way to add some color to your Channelz distribution plate without clogging your loop with pastel or mica filled coolants. We use an epoxy resin mixture that is safe for your loop and will certainly help that build POP. There is 30 different super vivid color options to choose from and we even added the ability for you to mix colors to give your loop its own style.

Features

Installation:

Remove the Fron panel from the case, with the front removed insert the Distribution plate and align it with the radiator mounting holes
so that the D5 pump mount clears the lower portion of the radiator mount. With the included M4x30mm countersunk screw and M4-nuts mount the distribution plate with screws go through the front of the case and the M4-nuts threaded from the inside of the case.
