Description

Designed and manufactured in the USA by Performance PCs.

This is a Single Loop Distribution Plate which fits onto the Top of the Corsair 5000X/D inside of the Top of the case . There are 3 ports, 1 inlet, 1 outlet and a fill port on the top of the distribution plate which can be accessed by removing the tempered glass Top panel window. It comes included with a DRGB Addressable LED strip.

Channelz Effectz Service

Tired of all that colored Coolant clogging up your loop but don't want to stick with some boring old clear coolant? Well Performance-PCs has you taken care of with their new Channelz Effectz Service! This service is a great way to add some color to your Channelz distribution plate without clogging your loop with pastel or mica filled coolants. We use an epoxy resin mixture that is safe for your loop and will certainly help that build POP. There is 30 different super vivid color options to choose from and we even added the ability for you to mix colors to give your loop its own style.

Features

Installation:

First install the included M4x10mm Standoffs to the bottom side of the distro(side with 2 ports on it). Next remove the tempered glass panel from the Top of the case, with the Top tempered glass removed insert the Distribution plate and align it with the radiator mounting holes. With the included M4x6mm countersunk screwmount the distribution plate with screws from the inside of the case.
